

MAROWSKY, 85, DIES OF LONG ILLNESS

Native of Germany, fog 21 Years Resident Here, succumbs of Complications.

Frederick Marowsky, a resident of South Bend for the last 21 years, died at his home, 1612 Sherman ave., Saturday morning at 7:45 o'clock, following an illness of 10 months with a complication of disease.

He was born in Frankfort, Germany, June 9, 1837, and was 85 years of age. He was married to Charlotte Eger, Sept. 28, 1862. He came with his wife to this country in 1883. Besides his wife he is survived by two sons, Frederick and Theo, and a daughter, Mrs. Emil Boetsch. Twelve grandchildren and 11 great grandchildren also survive. Mr. and Mrs. Marowsky celebrated their golden wedding anniversary at their present address in 1912.

Funeral services, which will be private, will be held Monday morning, Rev. Hugo Weichselbaum officiating. The remains may be viewed at the residence Sunday afternoon and evening. Friends are requested to send no flowers.

Rains in Kansas Cause Delay in Harvest, Said

Recent heavy rains have caused delay in wheat harvesting in Kansas, according to Detective James J. Cutting, returning to duty on the police force Saturday after a 15-day vacation trip to his brother's farm near Sedgewick, Kan.

Rains and high wind have worked immeasurable harm to corn, especially on low fields, said Cutting. Its condition is very poor. Some fields have been plowed under. Softness of the soil has made cultivating difficult.

Wheat condition of the biggest winter wheat state is poor also, the informant declared.

"While the yield will run fairly large, the berries are badly shrunk. This was caused by an early season drought and hot spell. The wheat generally throughout this area will run on a low average of quality."

Department Called When Two Fords Become Afire

Two Ford cars, belonging to Milton Helmick and R. Reevegahki, were damaged Saturday morning at 8:20 o'clock by a fire thought to have been started by a short circuit in one of the cars. The Fords were parked in the yards at the Studebaker corporation, both the owners being employees at the factory. The damage was confined chiefly to the car trimmings. Hose companies from the No. 2 station answered the alarm.

Very rarely can you make such savings on men and women's seasonable footwear as Belterm's clearance floor offers you in their big semi-annual clearance sale during July.

How to Make Currant Jelly from Ripe Currants

By Ann Proctor.

The finest currant jelly you ever tasted—chew full of the natural ripe color and flavor can be made at home within a few minutes. I use the "Certo Process" because I can use ripe currants and it takes only one-half minute's boiling, thus saving flavor and color; never fails; and is cheaper because I get two-thirds more jelly.

The new Certo Process for making Currant Jelly is very simple: Crush thoroughly about 2½ quarts (3½ lbs.) ripe fruit. Add ½ cup water, stir until boiling, cover pan, and simmer 10 minutes. Place in jelly bag and press out juice. Measure 4 cups (2 lbs.) juice into large saucepan. Measure 7½ leveled cups (3½ lbs.) sugar in separate pan. Bring juice just to boil and begin to add sugar slowly, with constant stirring, taking about 5 minutes to add all the sugar, and keeping juice nearly at the boil. Then bring to the boil and at once add 1 bottle (scant cup) Certo, stirring constantly. Continue to stir and bring again to a hard boil for ½ minute, stirring continually. Take from fire, let stand 1 minute, skim and pour quickly into sterilized glasses.

Note: For fruit obtained during first week of season use 4½ cups juice and only ½ bottle (scant half cup) Certo, making no change in sugar.

The above recipe and many others for making delicious jellies and jams by the "Certo Process" is found in the Certo book of recipes, a copy of which will be given to you by your grocer or druggist when you get Certo. Extra copies will be sent free if you write to the Poetry Sales Co., Inc., Dept. 127, Rochester, N. Y.

Use Certo this year in making all your jams and jellies. It saves time, worry and boiling in a hot kitchen. The "Certo Process" never fails and saves money because you make two-thirds more jelly from the same amount of fruit. Jelly and jam made this way keep perfectly.

If your grocer or druggist does not have Certo, please call Miss Schmok, Main 2100 to learn where to obtain it.

MEXICAN BANDITS RAID AMERICAN OIL CAMP; ASK RANSOM

WASHINGTON, July 1.—(By U. P.)—More banditry against oil camps has broken out in the Tampico district, again, the state department was advised today.

Congress Shaw reported that the rebel general, Larraga, has appeared at the Palo Blanco camp of the Penn-Mex. Fuel Co., an American concern near Texan, and demanded 10,000 pesos by July 1. Shaw forwarded no other details and did not state whether the rebels had seized the camp.

RARE PARIS STATUES CRUMBLING BY SMOKE

PARIS, July 1.—(By I. N. S.)—Venerable statues of stone, ancient reliefs, queer old gargoyle of Notre Dame and Saint-Chapelle—none of them can stand the strain of modern life in Paris.

Report has been made by experts to the proper authorities that all stone statues must have stood the test of centuries are commencing to crumble away. Here a general has lost an epaulet; there a bishop is minus his nose.

Do those monuments, solemn with age, frown upon the frivolities of 20th century Paris? Are they weary of being stared at by endless processions of tourists?

The experts say excess smoke in the atmosphere is the true cause. Legislation restricting smoking factory chimneys may result.

COST OF LIVING NOW CLIMBING IN FRANCE

PARIS, July 1.—(By I. N. S.)—Americans who come to Paris this summer with the idea that nine-cent francs—nearly half normal—will buy them a gay time for nothing will be sadly disillusioned.

Figures quoted by Marcel Cachin, in l'Humanite, communist organ, show that the cost of living in Paris, even for the Parisian who does not patronize tourist hotels, has increased three times since 1914. Wages have not kept pace with this increase, Cachin points out.

Cost of living has increased 600 times in Austria, 20 times in Germany, 22 times in Bulgaria, 462 times in Poland, twice in England, five times in Italy, four times in Belgium and 10 times in Finland, according to M. Cachin.

Fashionable For Children

for small girls to be dressed in Littleputian copies of grownups' clothes. It is generally true, though, that clothes for little girls do follow, in their own way, the varying changes of fashion.

This caps and pretty party dress show just how successfully they do it.

The cape is for all-around wear. The dress is for dancing class and may be made of organdie.

In spite of their adherence to fashionable rules, neither garment sacrifices the simplicity that is the best taste in children's clothes.

COLORADO NEGRO IS 106 YEARS OLD, CLAIM

IGNACIO, Colo., July 1.—(By I. N. S.)—John Taylor, a negro, is thought to be the oldest man on the Cte Indian reservation, near here. His exact age cannot be learned, but data indicates that he is about 106 years old. Taylor came to Southwestern Colorado with the Indians when they settled in this region more than half a century ago and was an "old man" then. He was a slave and came West after the emancipation. He married a squaw and has a large family.

The old negro acts as interpreter for both the Indians and the government in cases before the District Court. The most difficult interpreting task given Taylor came recently when he was called upon to trans-

late the "finger talk" of a deaf-and-dumb Indian from the sign language into English.

SCRIPTURES PREDICT NEW WAR: HISTORIAN

LONDON, July 1.—(By L. N. S.)—"All devout students of prophecy agree that there must be another war," says Rev. E. L. Langston, preacher and historian.

"The 1914-1918 war," he states, "changed the whole face of Europe and the Near East, and has altered the politics of the world. That war, if prophecy is read aright, is only a preparation for tremendous developments."

"The Scriptures state that there are likely to be two League of Nations, and the situation is more thrilling because of the entente between Russia and Germany at Geneva.

"The one certain fact in the future is that Jews are to play a very great part in the politics of the world. Throughout the whole of Christendom we see Jews coming to the front as never before—in law, politics, arts, science, newspapers, banking, diplomacy—wherever intellect is demanded there the Jew excels."

"The Jewish question, right to the second advent of Christ, will be at the bottom of all world unrest and will eventually lead to the last great war—Armageddon."

The timbers were estimated to be over a thousand years old, and, due to the dry, hot climate that prevails in the vicinity of the ruins, the wood has become so well seasoned that high-class violins are being made from it which have a tone, it is said, equal to that of an instrument that has been in use for a number of years.

The instruments are all of fine quality and are bringing high prices.

USE RUINS OF CLIFF HOMES FOR VIOLINS

ATZEC, N. M., July 1.—(By L. N. S.)—Valuable violins are being manufactured from wood taken from the ruins of cliff-dwellers, near this city.

While excavating recently Carl Morris, research investigator for the Smithsonian Institution, found a number of perfectly preserved timbers which are believed to have been used in constructing the homes of the cliff-dwellers.

The timbers were estimated to be over a thousand years old, and, due to the dry, hot climate that prevails in the vicinity of the ruins, the wood has become so well seasoned that high-class violins are being made from it which have a tone, it is said, equal to that of an instrument that has been in use for a number of years.

The instruments are all of fine quality and are bringing high prices.
